ARTICULATION BOOT CAMP

Articulation Boot Camp is an intensive program designed to help children of all ages who have difficulty pronouncing speech sounds in words or conversations. Children who receive articulation therapy at school may benefit from this program because the concentrated treatment maximizes potential change over a short period of time. DTA is offering this program during the winter break (traditional school calendar) in the Cary clinic.

- Intensives include five 30 minute sessions.
- The sessions are scheduled according to the need of the child and family.
- Intervention by a speech-language pathologist with expertise in articulation.
- Recommendations and strategies will be provided as well as home programming at each session.
- Cost: \$250.00 for 5 sessions. *Not insurance reimbursable.*
